Education

NRI Institute of Technology

B.Tech in Artificial Intelligence and Machine Learning - CGPA - 8.5

Sept 2022 – May 2026

TechnicalSkills

- GenAI & LLMs: OpenAI GPT-3.5/4, Gemini, Gemma 2, Prompt Engineering
- ML/AI Frameworks: TensorFlow, Scikit-learn, OpenAI Whisper, Sentence Transformers
- Programming Languages: Python, Java, C, FastAPI, REST APIs
- Databases: PostgreSQL, MongoDB, Firebase, Vector Databases
- Web Development: React.js, Node.js, Express.js, Flask
- DevOps & Cloud: Git, GitHub, Vercel, Netlify, Render
- Data Processing: Selenium, FFmpeg, TF-IDF, Embeddings, Semantic Search

Projects

- AI -Bilingual Translator using Gemma 2 LLM
- Enables seamless bilingual communication powered by Gemma 2’s natural language understanding
 - Fine-tuned on 215,000 sentence pairs across 2 languages including low-resource Telugu (23,500 examples).
 - Demonstrated expertise in LLM fine-tuning, embedding generation, and semantic understanding.
- Social Media Spam Detection via Live Web Scraping
- Built a real-time pipeline to scrape and process 15,000+ Instagram comments using Python.
 - Trained a Linear Regression model on a 7,500-entry labeled dataset for spam classification.
 - Achieved efficient processing and classification for detecting spam in live comment streams.
- Intelligent Injury Forecasting Framework
- Built real-time pose analysis system using MediaPipe with 42 skeletal landmarks extraction.
 - Achieved 93% sensitivity and 87% precision in injury risk prediction through continuous tracking.
 - Implemented ML-based risk assessment with 72% reduction in reaction time using alert mechanisms.
 - Demonstrated expertise in computer vision, pattern recognition, and real-time data processing.

Professional Experience

- GenAI Developer Intern
- Infosys Spring Board
- Remote, India
- Sept 2024-Nov 2024
- DevelopedanAI-poweredvideo-to-reelssummarizationsystem using OpenAIGPT-3.5 forconciseandengagingcontentgenera-tion.
 - Designed intelligent video segmentation and summarization workflows to automatically produce short-form content.
 - Built automated preprocessing pipelines with FFmpeg and Pythonfor efficient multimedia content handling.
 - Improved overall output quality through fine-tuned prompt engineering and summarization strategies .
- Data Analyst Intern
- Civil Supplies Commissioner Office, Andhra Pradesh
- Vijayawada, Andhra Pradesh
- Present
- Analyzing large-scale government datasetsto optimize public distribution system efficiency and resource allocation.
 - Creatingautomatedreports andinsightsforpolicydecision-makingusing SQLandPostgreSQL .

Achievements & Leadership

- Developed and deployed 5+ full-stack web applications using React.js, Node.js, and MongoDB
- Integrated EmailJS / REST APIs to enhance communication and automation on portfolio/contact forms.
- Maintained a GPA above 8.0 / 80% throughout engineering

Relevant Certifications

- Oracle Cloud Infrastructure 2024 Generative AI Certified Professional – Oracle
- Career Essentials in Generative AI – Microsoft and LinkedIn
- Google IT Automation with Python – Google
- Github Foundations – Github
- Meta (Coursera): Programming in Python | IBM: Web Development Fundamental
- Oracle Certified: Generative AI Cloud Associate | Stanford (Coursera): Supervised Learning
- AWS Certified Solutions Architect | Salesforce: Agentic AI Certification
